# NoiseMeters

## **CEL712 Microdust Pro - Real Time Dust Monitor**

#### Features

- Real-time Dust Levels for Instant Assessments
- Very wide range 0.001 mg/m3 to 250 g/m3, Auto Ranging
- Total, Respirable, PM2.5 or PM10 with optional adapter
- Removable Sampling Probe
- Rugged Design
- Software Included

#### Applications

- Workplace dust levels
- Dust and aerosol risk assessments
- Process monitoring
- Air filtration efficiency testing
- Environmental dust assessments
- Construction & demolition boundary monitoring

#### **On Site Calibration**

The CEL712 is factory calibrated using methods traceable to isokinetic techniques, conducted in a wind tunnel using ISO12103-1 A2 fine dust (Arizona road dust equivalent).

Each probe is supplied with a unique Calibration Insert that creates a known optical scattering effect in the probe's sampling chamber. This fixed reference can be used to confirm the original factory calibration point.

#### Overview

The CEL712 Microdust Pro provides realtime measurement and display of airborne dust, fumes and aerosols. This data logging meter is very quick and easy to use and, unlike most dust monitors, provides instant results.

#### **Real-Time Meter**

As the CEL712 is a real-time dust monitor, it is ideal for spot checks and walk-through surveys. You can instantly see where high dust levels exist. The dust levels can be displayed numerically or graphically.

### **CEL712 Microdust Pro - Real Time Dust Monitor**

## **Specifications**

Dust Measurement		Outputs	
Measuring range	0.001 mg/m3 - 250,000 mg/m3	Analogue output	0 - 2.5 V DC FSD
Zero stability Resolution	< 2 ug/m3 0.001 mg/m3	Alarm output	Switched open drain < 15 V & 500 mA DC
Power	Ĵ	Physical	
Batteries	3 x AA	Size	172 x 72 x 33 mm (6.8 x 2.8 x
Battery run time	Approx. 13 hours	(instrument) Size (probe)	1.3") 35 x 205 mm (1.4 x 8.1")
External power	12VDC (via optional PC18 supply)	Weight	< 600 g including batteries (< 22 oz)
Data Logging	o	Tripod mount	1/4"
		Operating temp	0 - 55°C
Logging interval	1 second to 60 minutes		
Memory	86,000 data points (500 measurement runs)		
Communication	Mini B USB
