## Power Supplies

## 1U Switching Regulated Rack Mounting \& Benchtop AC-DC single \& wide adjust output with optional auxiliary output

- UL60950, UL508, CE Certified
- Five Year Warranty

## Don't forget these facts about Acopian....

- Fast Shipping? Acopian invented it! For over half a century, Acopian has built and shipped millions of power supplies within 3-DAYS after receipt of order. And we still do today! View our 3-DAY Shipping Promise: www.acopian.com/3dayship.html
- You ALWAYS talk to a real person when you call Acopian.
- Acopian power supplies last a very long time!
- You can email 3day@acopian.com anytime for 24/7 product support.
- The Online System Builder (www.acopian.com/SystemBuilder) is a convenient way to get your own custom power supply or power system (and most ship within 9 Days).
- You can order Acopian power supplies factory direct.
- ALL Acopian products are made in the USA.

Order Factory Direct Made in USA
single output \& wide adjust output with optional auxiliary output (to 180 watts)

## 1 SWITCHING REGULATED (to 720 watts) (Power Factor Correction and Universal Input)

RACK MOUNTING \& BENCHTOP

## AC-DC

- UL60950, UL508, CE Certified
- Five Year Warranty

## STANDARD FEATURES

- Universal input
- Power Factor Correction
- Constant voltage and constant current modes
- Short circuit and overload protection
- Thermal protection
- No minimum load required
- Adjustable down to 0 volts ('Wide Adjust' models)
- Internal EMI Filter and RFI Shielding
- Pluggable connectors for input and control wiring
- Remote Sensing
- 'Soft start' operation
- Output Programming ('Wide Adjust' models)
- Voltage and Current monitors
- Output Inhibit (or Enable)
- Vok ('Single Output' models)

## SPECIFICATIONS

WARNING: HIGH LEAKAGE CURRENT. EARTH CONNECTION ESSENTIAL BEFORE CONNECTING SUPPLY.
Input Voltage: 95-265 VAC, 49-420 Hz, single phase.
AC Input, max.: 8A (450W), 12A (720W)
Note: All units are shipped with 125 v IEC line cord (standard).
Inrush current: Cold start, (thermistor limiter) 33A peak @ 115 VAC (typical); 65A peak @ 230 VAC (typical). (Not recommended for use on ground fault protected circuits.)
Startup Time: 800 mS (typical).
Input Undervoltage: An input of less than 95 VAC will not damage power supply.
Power Factor: 0.99 typical at $115 \mathrm{VAC}, 60 \mathrm{~Hz}$ and full load. Complies with EN61000-3-2.
Regulation (in constant voltage mode):
Line Regulation: $\pm 0.05 \%$ or 5 mV , whichever is greater.
Load Regulation: $\pm 0.05 \%$ or 5 mV , whichever is greater.
Regulation, Ripple (in constant current mode):
Line Regulation: $\pm 0.2 \%$ or 30 mA .
Load Regulation: $\pm 0.5 \%$ or 100 mA .
Current Ripple: 0.5\% rms.
Regulation, Ripple (in ' $\mathrm{N}+1$ ' or ' P ' mode):
Line Regulation: $\pm 0.1 \%$ or 50 mV , whichever is greater. Load Regulation: $\pm 0.1 \%$ or 50 mV , whichever is greater. Ripple: $2 x$ rating in table.
Ambient Operating Temperature: 0 to $+71^{\circ} \mathrm{C}$.
Temperature Coefficient (after 30 minute warm-up): Voltage mode; $\pm 0.02 \% /{ }^{\circ} \mathrm{C}$ (typical).
Current mode; $\pm 0.1 \% /{ }^{\circ} \mathrm{C}$ (typical).

Drift (voltage mode or current mode): $\pm 0.1 \%$ (typical) over 8 hours, after 30 minute warmup.
Storage Temperature: -40 to $+85^{\circ} \mathrm{C}$.
Holdup Time: 20 mS minimum with full load.
Transient Response: $300 \mu$ S to return to $\pm 1 \%$ of output setting. Maximum of $\pm 3 \%$ output excursion following a load step change from $50 \%$ to $100 \%$.
Efficiency: See table. (Typical, at 115 VAC, with full load.) Polarity: Output is floating and may be used in either polarity.
Remote Sensing: Compensates up to 0.5 Vdc drop per output line (or within the limits of the output voltage adjustment range). Present on both primary and auxiliary outputs. (Wide Adjust models compensate up to 0.5 Vdc drop per output line.)
Output Adjustment: Voltage and current adjustments are accessible through the rear panel. No current adjustment for auxiliary output.
Output Programming (Wide Adjust models): The output voltage and current may be programmed from 0 to full rating by means of control voltage inputs of 0 to $+10 \mathrm{Vdc}(0$ to +5 Vdc for models with option "C5"). Voltage mode accuracy: 0.5\%. Current mode accuracy: 3\% for models with greater than 10 amps output current and $4 \%$ for models with less than 10 amps output current. Accuracy percentages do not apply below $5 \%$ of output rating. NOTE: If "C1" and "DIO" options are both present, rear panel output programming is disabled.
Voltage Monitor Terminal: Permits remote monitoring of output voltage, stepped down by a ratio of 10:1 (for 3.3v to $90 v$ models) or 100:1 (for 100 v to 135 v models). Accuracy is $0.5 \%$ of maximum rated output voltage.

For models with 0-5v programming option "C5":
Permits remote monitoring of output voltage, stepped down by a ratio of 10:1 (for 3.3 v to 45 v models) or 100:1 (for 48 v to 135 v models).
Accuracy is $0.5 \%$ of maximum rated output voltage.

## 1U SWITCHING REGULATED (to 720 watts)

## SPECIFICATIONS (continued)

Current Monitor Terminal: For models with greater than 10 amps output current: permits remote monitoring of output current, stepped down by a ratio of $100 \mathrm{mV} / \mathrm{Amp}$ (accuracy is $3 \%$ of maximum rated output current). For models with less than 10 amps output current: permits remote monitoring of output current, stepped down by a ratio of $1000 \mathrm{mV} / \mathrm{Amp}$ (accuracy is $3 \%$ of maximum rated output current).

For models with $0-5 \mathrm{v}$ programming option "C5":
For models with greater than 45 amps output current: permits remote monitoring of output current, stepped down by a ratio of $10 \mathrm{mV} / \mathrm{Amp}$ (accuracy is $5 \%$ of maximum rated output current). For models with less than 45 amps output current: permits remote monitoring of output current, stepped down by a ratio $100 \mathrm{mV} / \mathrm{Amp}$ (accuracy is $3 \%$ of maximum rated output current).
Overload/Short Circuit Protection: A short or overload forces the power supply into constant current mode, with automatic recovery.
Overvoltage Protection: Latches power supply OFF, reset by momentarily removing AC input power. (Models with ' N ' option reset automatically.)
Thermal Protection: Thermostat(s), self-resetting.
Internal Failure Protection: Provided by internal fuse.
Output Inhibit: Applying between +3 and +15 Vdc to the Inhibit terminal will disable the supply. 'Output Enable' is also available (see Options).
V ok (Single Output models): When the power supply's output voltage is between $-14 \%$ and $+15 \%$ of the nominal output voltage, ' V ok' will be between +3 and +5 Vdc (high). When the output voltage is outside the $-14 \%,+15 \%$ window, the 'V ok' voltage will go low (approx 0.5 Vdc ). 'V ok' can source 1 mA or sink up to 5 mA .
Switching Frequency: 110 kHz (typical).
EMI: Designed to meet FCC Part 15, EN61326-1 and EN55022, Class A.
Dielectric Withstand Voltage Isolation

$$
\text { Input to output: } 4242 \mathrm{Vdc} \quad 300 \mathrm{Vdc}
$$

Input to case: 2121 Vdc 300 Vdc
Output to case: $750 \mathrm{Vdc} \quad 300 \mathrm{Vdc}$
Cooling: Forced-air cooled. Air enters front of power supply and exits from rear cover. Fan speed is controlled by thermostat. High Speed Fan noise rated at 48dB for 450w models and 54 dB for 720 w models.
Mounting: Rack Mounting models are designed expressly for mounting in standard $19^{\prime \prime}$ wide RETMA cabinet racks. Benchtop models rest on four rubber feet.

## OPTIONS

Output Enable: To enable the DC output, the Inhibit terminal must be tied to the -DC output. An open collector or contact closure can be used. To order, add suffix "E" to the model number.
Handles: To order, add suffix "H" to the model number.
Digital Voltage and Current Meters: To order, add suffix "M3" to the model number.
Output Blocking Protection Diode: Used for battery charging applications. Derate output by $10 \%$. To order, add suffix "E1" to the model number. (Not available with N or P options.)
Front Panel Adjust (Wide Adjust models): Voltage and current adjustment knobs available on front panel. To order, add suffix "C1" to the model number.

Output Indicator(s) (DC on) (Single Output models): Front panel mounted green LED(s). To order, add suffix "G3" to the model number.
$\mathrm{N}+1$ Redundancy (Single Output models): Allows up to 4 like models to be wired in $\mathrm{N}+1$ redundancy. An internal isolation OR-ing diode is included in each power supply. Current share accuracy is $\pm 5 \%$ (typical). Power supply output current must be derated by $10 \%$. This option incorporates the "P" (Parallelable) option and the "E1" (Output Blocking Protection Diode) option, so if you specify the " N " option do not also specify the "P" or "E1" options. To order, add suffix " N " to the model number.
Parallelable (Single Output models): Allows up to 4 like models to be directly wired in parallel for increased current capability. Current share accuracy is $\pm 5 \%$ (typical). Power supply output current must be derated by $5 \%$. This option is included in the " N " ( $\mathrm{N}+1$ Redundancy) option listed above, so if you specify the " N " option, do not also specify the " P " option. To order, add suffix "P" to the model number.
$0-5 \mathrm{v}$ Programming (Wide Adjust Models - instead of the standard 0-10v Programming): Output voltage and current of standard models may be programmed from 0 to full rating by means of control voltage inputs of 0 to +10 Vdc . For programming with 0 to +5 Vdc control voltages, add suffix "C5" to the model number. Voltage mode accuracy: $1 \%$. Current mode accuracy: 5\%. Accuracy percentages do not apply below $5 \%$ of output rating.
Alarm with Relay Contacts (Single Output models):
Choose one: G1 or G7
G1: Form C alarm contacts that change state when output voltage deviates $\pm 2 \mathrm{Vdc}$ ( 5 v to 47 v models) or $\pm 3 \mathrm{Vdc}$ ( 48 v to 135 v models) from nominal. To order, add suffix "G1" to model number. (Not available with Auxiliary Output or DIO options.) G7: Form C alarm contacts (contacts rated at $175 \mathrm{v}, .5 \mathrm{~A}$ ) that change state when output reaches $10 \%$ below or $15 \%$ above nominal voltage. To order, add suffix "G7" to the model number. ('V ok' signal is disabled with this option.)
Chassis Slides (Rack Mounting models): For racks having rear mounting rails spaced $18^{\prime \prime}$ to $24^{\prime \prime}$ behind the front panel. To order, add suffix " $S$ " to the model number.
Auxiliary Output: Choose desired voltage from the 'Optional Auxiliary Output' table on page C19. To order, use the 'Model' column to determine suffix. (Not available with C1 or G1 options.)
Digital Interface: Can be used to monitor and/or control output voltage and current. Includes isolated Ethernet (10/100Mbps), RS232, and USB interfaces (plus RS485 with option "DIO2"), utilizing 16 bit DAC and ADC. This option incorporates the " $E$ " (Enable) option, so if you specify this option do not also specify the "E" option. To order, add either suffix "DIO1" or suffix "DIO2" to model number. (Not available with G1 or Auxiliary Output options.)
Bus Bar Cover: Protects exposed output terminals from contact. To order, add suffix " M " to model number.
Moisture/Fungus Proofing: Power supplies can be furnished with a moisture and fungus resistant varnish. To order, add suffix " $F$ " to the model number.

## AUXILIARY OUTPUT SPECIFICATIONS

Startup Time: 800 mS typical.
Regulation:
Line: $\pm 0.05 \%$ or 5 mV , whichever is greater.
Load: $\pm 0.05 \%$ or 5 mV , whichever is greater.
Polarity: Output is floating and may be used in either polarity.
Drift: $\pm 0.1 \%$ typical over 8 hours, after 30 minute warmup.
Temperature Coefficient: $\pm 0.02 \% /{ }^{\circ} \mathrm{C}$ (Typical).
Holdup Time: 16 mS minimum.
Transient Response: $300 \mu \mathrm{~S}$ to return to $\pm 1 \%$ of output setting. Maximum of $\pm 3 \%$ output excursion following a load step change from $50 \%$ to $100 \%$.

Remote Sensing: Compensates up to 0.5 volt drop per output line, within the limits of the output voltage adjustment range.
Overload/Short Circuit Protection: Current limiting with automatic recovery.

Overvoltage Protection: Latches power supply OFF, reset by momentarily removing AC input power.
Output Inhibit: Applying between +3 and +25 Vdc to the inhibit terminal will disable the supply.
Thermal Protection: Thermostat, self-resetting.

How to order using model W24LTU3000E1G13HM3S-24NTU750 as an example:

## Standard Model Number

Choose from standard single or wide adjust outputs (see tables on pages 4-6 for available output ratings). Use 'U' for rack mounting, substitute 'B' for benchtop.

Auxiliary Output or Digital Interface Option
Choose to add an auxiliary output (see table on page 7 for available output ratings) or digital interface.

All options listed on page C14 apply only to the models listed on pages C16-C18. The optional Auxiliary Output has only 'Inhibit' functionality in addition to output and sense connections.

ACOPIAN SELLS FACTORY DIRECT WORLDWIDE: We do not use representatives or distributors. Contact Acopian for technical information or a quote.
WARRANTY: Acopian power supplies are warranted to be free from defects in material and workmanship for a period of five years (encapsulated devices, for one year) from date of original shipment. Acopian's obligation under this warranty is limited to repairing any power supply returned to the factory Service Department in Easton, PA or Melbourne, FL, and replacing any defective parts. Mini Encapsulated power supplies are not repairable. Authorization must be obtained from Acopian before a power supply may be returned for repair. Units must be well packed when shipping to Acopian; the repair of any damage incurred during shipment will be charged. Transportation charges are to be paid by the purchaser. A reinspection and handling charge will be applied to returned units found to have no defects. If a failure has been caused by misuse, operation in excess of specifications, or modification by the customer, repairs will be billed at cost; in such cases, a cost estimate will be submitted before work is started.

Acopian reserves the right to make changes or improvements in its products without incurring any obligation to install the same on products previously manufactured.

This warranty is in lieu of all other warranties, obligations, and liabilities, expressed or implied, and is the purchaser's exclusive remedy. Acopian makes no warranty, either express or implied, of merchantability, fitness for a particular purpose or otherwise. In no event shall Acopian be liable whether in contract, tort, or negligence, for special, indirect, incidental or consequential damages of any kind, including loss of business or profits, or any other losses incurred by the purchaser or any third party, the Customer's remedies being limited, at Acopian's option, to replacement, repair or credit at the price on the date of claim.

The validity, performance and construction of all terms and conditions and any sale made by Acopian shall be determined by the law of Pennsylvania, without regard to its conflict of law principles, and all parties to the transaction expressly consent to the jurisdiction of such courts and consent to the venue of the Court of Common Pleas for Northampton County, Pennsylvania.
PRICES: The prices shown are F.O.B. our factory; Easton, PA or Melbourne, FL. ('EXW Factory' if outside the 50 United States.) All prices and specifications are subject to change without notice.
TERMS: Net 30 days, subject to credit approval. Visa, MasterCard and American Express also accepted.
SHIPPING: Location permitting, small shipments are made by United Parcel Service, FedEx, DHL (international orders) or by Parcel Post; larger shipments, by insured motor freight collect. Shipments can be made by air upon request. Risk of loss shall be F.O.B. Our Factory, even in cases where freight may be prepaid or allowed to destination by Acopian. If equipment is received in damaged condition, it is the customer's responsibility to contact the carrier and file a claim for damages.
TIME FOR DELIVERY: The time for delivery quoted by Acopian is the time required to ship from our plants. We will not be liable for delays in delivery caused by any reason beyond our control, including but not limited to acts of God, casualty, civil disturbance, labor disputes, transportation or supply difficulties, or any interruption of our facilities, and the quoted time for delivery shall be extended during the continuance of such conditions and for a reasonable time thereafter. In no event will Acopian be liable for any premium transportation, reprocurement, or similar costs incurred by the Customer as a result of conditions beyond Acopian's control resulting in Acopian's inability to deliver product in accordance with customer's requested delivery schedules.
QUANTITY DISCOUNTS: Discounts are available to quantity buyers and are dependent upon the order quantity and the manufacturing scheduling anticipated by the order, and apply only to the quantity and delivery ordered. Partial shipments are considered as separate orders for discounting purposes.
EXPORT ORDERS: A minimum export documentation charge of $\$ 60.00$ applies. (A minimum charge of $\$ 25.00$ applies on orders to certain U.S. territories requiring customs forms.)
MOISTURE/FUNGUS PROOFING: Power supplies can be furnished with a moisture and fungus resistant varnish applied to interior surfaces. To order, add the suffix letter F to the model number. This option requires two additional days and is not available on High Voltage, Mini Encapsulated, Rack Mounting, and Gold Box Switching models.
TAGGING: Add $\$ 10.00$ to price.
TEST DATA: Cost, $\$ 35.00$ or $2 \%$ of order, whichever is greater.
SPECIAL MODELS/MODIFICATIONS: Cataloged models can be altered at the factory to meet special requirements. Contact the Applications Engineering Department to discuss your needs.
PARTS: The designs used in Acopian power supplies utilize standard components to the greatest practical extent. When replacements are required, the types originally used, or their equivalents, can usually be obtained most quickly from a local electronic components distributor.

Special components, such as transformers, are stocked at the factory warehouses. Contact the Applications Engineering Department for information on the parts required, referencing the model number of the power supply, the circuit designation of the component, and a description.
PURCHASE ORDER ACCEPTANCE: Orders are accepted subject to Acopian's Terms and Conditions. Any Terms and Conditions of any Purchaser's order, agreement, or understanding which are in addition to or inconsistent with Acopian's shall not be binding upon Acopian unless made in writing and accepted over the signature of an authorized officer of Acopian. Orders shall not be considered accepted until entered into production at our plant. Acopian reserves the right to refuse any order. All typographical and clerical errors are subject to correction by Acopian.
RETURNED GOODS: Acopian products are built on a per-order basis, and ordinarily no credit can be extended for their return. No goods will be accepted for return unless authorized in writing by Acopian.
CHANGES: The customer may, by a written notice, request changes within the general scope of the order, in the drawings, designs or specifications; method of shipment; and place of delivery. If any such change causes an increase or decrease in the cost, or the time required for the processing of any part of the order, an equitable adjustment shall be made in the price or delivery schedule, or both, and the order shall be modified in writing accordingly.
CANCELLATION: Suspension or cancellation of orders may be made only upon our written approval and on terms that will indemnify us against all loss.
OVERTIME: It is anticipated that any order will be processed during regular working hours on regular working days. If for any reason the Purchaser requests Acopian to process the order, or any portion of it, outside of such regular working hours, any overtime or other additional expense occasioned thereby shall be billed to and paid by the Purchaser as an extra cost. Acopian reserves the right to decline to process the order outside regular working hours.
CUSTOMER DELAY OF WORK: If the performance of all or any part of the work is delayed or interrupted by Customer's failure to act within the time specified (or within a reasonable time if no time is specified) and such act is not expressed or implied by the order, an adjustment shall be made in the cost of performance of the order caused by such delay or interruption and the order modified in writing accordingly. Adjustment will also be made in the delivery or performance dates and any other contractual provisions affected by such delay or interruption.
GOVERNMENT SPECIFICATIONS: Pricing is based upon industrial-grade construction, marking, packing, and packaging. Exception is taken to any MIL specifications, and to any requirements for the use of special forms, documentation other than quoted, and Government Source Inspection. Acopian must decline to quote on any other basis.
APPLICATIONS ASSISTANCE: Questions regarding the specifications, features, and use of any Acopian product should be directed to the Applications Engineering Department. A staff of power supply specialists will be pleased to assist you.
ACOPIAN IS AN ISO 9001 CERTIFIED COMPANY
