

Fuelling products Couplings 4-inch self sealing industrial couplings

CCMY4500

GENERAL INFORMATION

Meggitt self sealing couplings are designed for use wherever it is necessary to connect and disconnect hoses and pipelines under pressure, quickly and without spillage. They are designed primarily for use in the petroleum, chemical and brewing industries where reliability and safety are of prime concern. The Offshore version has stainless steel internals and a special bush.

DESCRIPTION

Hose units incorporate the female connector and a swivel for hose connection. Tank units are flanged and incorporate the male connector.

CCMY4501 Offshore version

Key Features

- Unrivalled quality for trouble free operation and long life
- Negligible spillage
- Environmentally friendly
- Easy single action coupling and valve opening
- Material: aluminium alloy / stainless steel components
- Nitrile or fluorocarbon seals
- Selectivity options
- Offshore version

Specification

OPERATION

Operation is single action, using a straight forward turning motion to connect the couplings and open a flow path. An initial push and turn action on the hose unit causes engagement with the tank unit, thus locking and sealing the two units together. Further rotation causes the internal valves to open, thereby allowing flow with minimum pressure drop. The connection and valve mechanism is interlocked such that the valve can only be opened by fully engaging and sealing the hose unit on its matching tank unit. On disconnection, the valves fully close before the couplings separate and spillage is therefore negligible.

1 - HOSE UNIT, STRAI 4-inch ASSP	GHT TYPE	CCMY 558*
HOSE UNIT, STRAI 4-inch BSP(P)	GHT TYPE	CCMY 559*
Material Weight Max. working pressure Max. coupling pressure	Aluminium alloy with stainless	steel components 13.0 kg (28.8 lb) 150psi (10 bar) 100 psi (7 bar)
2 - HOSE UNIT, 90 SWI 4-inch ASSPT HOSE UNIT, 90 SWI 4-inch BSP(P)		CCMY 554* CCMY 555*
Material Weight Max. working pressure Max. coupling pressure	Aluminium alloy with stainless	steel components 15.9 kg (35 lb) 150 psi (10 bar) 100 psi (7 bar)
3 - HOSE UNIT, 90 SW 4-inch ASSPT HOSE UNIT, 90 SW 4-inch BSP(P)		CCMY 554* CCMY 555*
Material Al Weight	luminium alloy with stainless s	steel components 15.9 kg (35 lb)

SELECTIVITY

To avoid product contamination caused by connecting a hose unit to the wrong tank unit, selective versions of the hose and tank units are available.

Selective Position No.		2	3	4	5	6	7
