## 840-0180 POLARIZER HOLDERS

840-0180-A1

840-0180-A2

840-0180-A3

- For Ø1", Ø2" and Ø3" optics

Accepts optics up to 13 mm thick

- Continuous $360^{\circ}$ rotation with $\mathbf{2}^{\circ}$ scale gradation

Lockable
Roller bearings design
2 graduation scales that may be useful in little space applications

- M6 and M4 threaded holes for mounting on posts or bases
Material: black anodized aluminum

Polarizer Holders 840-0180-A are ideal for positioning rotation sensitive optics such as polarizers or waveplates. Holders are offered for optics of 1 ", 2 " or 3 " diameter. Optics is placed inside central aperture, where it is securely held in place by a threaded retaining ring. The position is indicated on two $360^{\circ}$ angular scales, with gradation of $2^{\circ}$. Where space doesn't allow to read one scale, you always will be able to view another.
The base of a holder has M6 and M4 threaded holes for mounting on posts or bases.
840-0180-A has a removable rod to rotate the platform by any of its 4 holes.

> 840-0180-B1, 840-0180-B2

Polarizer Holders $840-0180-\mathrm{B}$ are the same as $840-0180-\mathrm{A}$, except that their fixing screw is tightened with a hex-key (included), and it does not stand out from the surface.
Like in $840-0180-\mathrm{A}$, the platform is rotated by any rod or the same hex key.
The holders are made of black anodized aluminium.
