

## the allrounder for coarse to fine sanding applications

The all-purpose 2800 siron offers a wide range of uses in wet sanding and is equally effective in the surface treatment of unalloyed and alloyed steels as well as non-ferrous metals and in various other applications, thanks to high stock removal rates, long life and excellent surface finishing results.

### Advantages

- May be used wet or dry
- Backing with very high stability and rigidity
- Wide range of applications

### Applications

- Removing discolouration
- Sanding down
- Surface treatment
- Deburring
- Smoothing and blending of flaws
- Structuring and final sanding

### Product profile

Grit type: Zirconia alumina  
 Backing: y-wt cloth  
 Coating: Closed  
 bonding: resin over resin

### Properties

The following properties refer to the materials used in the main application:

### Materials

Unalloyed / low-alloy steel; High-alloy steel; Non-ferrous metals
