

Model 30

General Purpose Impulse Heat Sealer

- **Lightweight and economical.**
- **Ease of operability.**
- **Highly adaptable for sealing multiple materials**

Model 30 Pneumatic Impulse Sealer

Our pneumatic jaw pressure sealer is recognized as one of the best general-purpose bag sealers for users requiring an economical yet reliable impulse sealer. Constructed using powder coated steel and high-quality pneumatic components, the Model 30 is designed to provide years of trouble-free operation.

The design combines performance with value in a machine that can be adjusted for a wide variety of film bag sealing applications. The system is equipped with an electric foot switch that allows a single operator to easily and safely activate the sealing process.

The Model 30 can be relied on to produce a quality seal every time, even when using mil-spec films that demand repeatability and reliability.

Ease of Portability

The ergonomically designed Model 30 can handle your toughest job yet, at 30 lbs, it's easy to lift. The unit is designed for tabletop operation or, can be mounted on an optional ergonomic stand that allows for multi-positional orientation by the user.

Customer Service

Our dedicated sales and technical support teams are knowledgeable and ready to assist you when you call about your application. We work to set the industry standard for responsiveness and service to both existing and new customers.

Two-Year Limited Warranty

We are confident with the quality and reliability of our products and offer a Two-Year Limited Warranty for most Accu-Seal machines. For further details please contact the Accu-Seal sales department. Accu-Seal machines are designed and manufactured with pride in the USA.
