

T-STATION 300 TURBOMOLECULAR PUMPING STATION

edwardsvacuum.com

Edwards T-Station 300 turbomolecular pumping station builds on the existing popular T-Station 85 platform, by replacing the nEXT85H turbomolecular pump with the nEXT300 turbomolecular pump we have extended our portfolio and are providing a solution for customers and applications that require a higher pumping speed up to 300 ls^{-1} .

T-Station 300 like all our T-Stations is a cost effective, compact and modular pumping station, combining the nEXT300 turbomolecular pump with either the dry XDD1 diaphragm pump or the E2M1.5 oil-sealed rotary vane pump.

With an integrated turbo and active gauge controller that enables single start/stop control giving the choice of pumping speed, extending the performance envelope for the R&D sector.

Higher pumping speed

End user serviceable

Features and benefits

- Higher pumping speeds**
 Providing a solution for customers and applications that require higher pumping speeds up to 300 ls^{-1} .
- Cost efficient pumping package**
 Cost effective, compact and modular.
- Plug and pump**
 Simple user-friendly plug and pump solution with no systemisation and no additional air cooling required, supplied fully assembled and ready to go for quick and easy operation.
- Robust construction**
 Designed to be compact with a low profile, the all metal frame is able to withstand abuse without cracking or breaking and the base plate comes with rubber feet for extra stability.
- Easy serviceability**
 Easy user serviceable pumps make this great for low cost of ownership.

TECHNICAL DATA

	Units	T-Station 300
Pumping speed for N₂		
ISO100	l/s	300
CF100	l/s	300
Compression ratio for N₂		
ISO100		>1x10 ¹¹
CF100		>1x10 ¹¹
Backing pump speed 50Hz		
E2M1.5	m ³ /h	1.6
XDD1	m ³ /h	1.2
Ultimate vacuum		
ISO100	mbar	<6x10 ⁻⁸
CF100	mbar	<5x10 ⁻¹⁰
Exhaust flange		
E2M1.5		11 mm OD nozzle or 3/8" BSP
XDD1		Fitted silencer or 1/4" BSP
Mass		
TS300 ISO100 E2M1.5	kg	26
TS300 CF100 E2M1.5	kg	29
TS300 ISO100 XDD1	kg	22
TS300 CF100 XDD1	kg	25
Noise level	db(A)	<56 ± 3dB(A) Declared dual number noise emission values in
Leak tightness	mbar l/s	<1x10 ⁶
Operating temperature range		
TS300 E2M1.5	°C	+12 to +40
TS300 XDD1	°C	+5 to +35
