UF UTILITY FIXTURES

Utility UV Fixtures are available with flat, A-shaped or half-round reflectors for general-purpose air and surface sterilization. Various sizes and configurations are available for all applications. The UF germicidal UV fixtures can be mounted to walls and ceilings, inside cabinets and equipment and under counters.

| UF Fixture with Flat Reflector | UFR with Half-round Reflector | UFA with A-shaped Reflector |

All American Air & Water utility fixtures are UL approved and can be ceiling mounted or suspended. Standard electrical operation is 120V 60Hz with other voltages also available.

Benefits
- Direct air and surface sterilization
- Spectrally polished reflectors to maximize UVC lamp output
- 17"-37" fixture lengths
- Single and dual lamp configurations
- Standard and High Output UV fixtures available (only standard output models shown here)
- Simple, tool-free lamp change
