

DAS GROSSE AUGE II THE BIG EYE II L'ŒIL GÉANT II

LICO

Our exclusive A5-300 cm², optical - crown white-glass magnifier 3 diopters (1,75) or 4 diopters (2x) is an outstanding solution for inspection. This illuminated magnifier with electronic dimmer and distortion free optical glass in crown white, allows due the extraordinary big lens the view through the lens with both eyes without any fatigue or distortion influence. Eyestrain is a thing of the past, low inspection yield after short use of smaller lenses are no more reality.

The sturdy metal arm allows the operator a one forgiving lens focus, which allows inspection and and repair under perfect optical conditions.

The convenient, in the range of 100% to 25% BIG-EYE 2 are made in 2 versions for all needs. Austria.
